Full Stack Developer · Cybersecurity Professional

ABOUT ME

Passionate Full Stack Web Developer and Cybersecurity professional with a degree in Software Engineering from O&M University and multiple diplomas from ITLA. I bring 5+ years of experience in front-end and back-end development, IT infrastructure, ethical hacking, and security tooling — bridging technical depth with clear communication across teams.

WORK EXPERIENCE

Software Developer

Domitab (Hail and Cotton) | 2025 – Present

- Develop and maintain software solutions tailored to business operations.
- Collaborate with cross-functional teams to deliver reliable, scalable applications.

Full stack Web Developer

Aurora Technologies | 2022 – 2024

- Developed and maintained scalable web applications using modern frameworks.
- Collaborated with cross-functional teams to deliver user-friendly solutions.

IT Support Specialist

QTEK Solutions | 2021 – 2022

- Provided technical support and troubleshooting for hardware and software issues.

Backend (Java/Node) & Frontend (Vue) Developer — Freelance

Self-Employed | 2019 – Present

- Delivered custom web solutions to meet client-specific requirements.

IT Support (English)

ERC | 2019 – 2020

- Supported IT operations for English-speaking clients, ensuring seamless technical operations.

Electronic Instrumentation Technician
